

# Program at a Glance

## Project Number 5.8

Pump Station #0107 (2050 NW 75 Street) upgrade:

- Replacement of plumbing and electrical equipment
- Rehabilitation of existing wet well
- Installation of new valve box
- Installation of new submersible pumps and control motors
- Installation of new top slab with hatches
- The upgrade will not affect the water or the wastewater services in your area.
- The areas surrounding the construction will be restored at the conclusion of the project.

QUALITY. VALUE. ECONOMIC GROWTH.

## Fact Sheet

### Pump Station #0107 Upgrade

#### PROJECT OBJECTIVES

The Miami-Dade Water and Sewer Department (WASD) has embarked on a Capital Improvement Program to provide necessary upgrades to the water and sewer infrastructure to continue providing high quality services, protecting public health, and the environment. One of these projects is the upgrade of a pump station in your neighborhood. This project is part of the Consent Decree Program which requires several operational and maintenance improvements to Miami-Dade's wastewater system.

On April 9, 2014, the United States District Court for the Southern District of Florida authorized a Consent Decree between Miami-Dade County, the United States of America, the State of Florida, and the Florida Department of Environmental Protection, for improvements to the County's wastewater collection system. The rehabilitation of wastewater lines for Consent Decree project 5.8 is part of this program.

#### PROJECT INFORMATION / SCHEDULE

Construction of the new pipeline is expected to begin in January 2017 and expected to be completed in eleven months. Construction work will take place during weekdays from 9:30 am to 4:30 pm. The contractor will take additional steps to minimize impacts, but you may experience some noise and intermittent traffic. At the conclusion of the project, the roadway areas impacted by the construction will be restored. We thank you for your continued support.
